Thanks, Tim.

I overlooked West Milwaukee. Could you add their data?

Tim,

I am processing the Milwaukee cost of service study, in particular allocation of the cost of public fire protection. A portion of the cost of public fire protection is allocated on the basis of the number of hydrants and length of mains in a community.

Can you provide this information (that is, number of hydrants and lengths of distribution main broken down by diameter) for Greenfield, St. Francis, and Hales Corners? I would appreciate having it by Thursday morning, if possible.

Thank you,

Andrew Behm
